HOW CAN I HELP?

Software Quality Assurance & Testing

Project Planning

Team Management

Automation Framework, Development, & Testing

Performance Testing

CODING SKILLS

- Java
- JavaScript
- Python
- VBScript
- C#
- HTML
- CSS

Medel G. **Vecina**

ITIL TRAINING ORGANIZATION ACCREDITED BY PEOPLECERT ON BEHALF OF AXELOS

20 years – Software Quality Assurance
13 years – Leadership
10 years – Automation Testing
2 years – Performance Testing

Test Policy & Guidelines | Shift-Left | Pyramid Testing | Zephyr | XRay
JIRA | HP ALM | IBM RTC | PostgresSQL | MySQL | BrowserStack
POS | Unix / Linux | Device Farm | TestFlight | Firebase | AppCenter
REST & Web Socket Test | JMeter | Postman | SoapUI | Performance Test
Cyber Security Platform | Web-based App | Mobile Banking App | Smart Card
Embedded System | Online Casino Games | Robocorp Control Room | RPA | Selenium
TestNG | Cucumber-Gherkin | HP UFT | IBM RFT | Nigthwatch.js | Tosca
Robot Framework | Appium | Cypress | Jenkins | Github Actions | CI/CD
Docker | Kubernetes | Dynatrace | Grafana | OpenStack

TEST DELIVERY HEAD – SAVP

SECURITY BANK CORP | Makati City, PH | JULY 2025 – JAN 2026

Project: Mobile & Web Banking Apps

- Led the Automation and Performance teams, overseeing end-to-end testing of banking apps.
- Streamlined the test procedures and RACI for Test Automation and Performance Testing.
- Defined and implemented the automation and performance testing strategy and roadmap.

TEST ARCHITECT – SM

BDO UNIBANK | Makati City, PH | JUNE 2023 – JULY 2025

Project: Mobile & Web Banking Apps | Back Officer

- Spearheaded in-sprint automation, increasing test coverage for new features by 30% and reducing regression cycle time.
- Provided leadership and technical expertise to the Test Automation, Performance Testing, and Manual Testing teams.
- Streamlined the STLC, increasing efficiency in test planning, execution and reporting by 40%.
- Reported actionable insights to development teams, reducing system crashes during peak loads by 30%.
- Monitored of all the QA activities, test results, leaked defects, root cause analysis and identifying areas of improvement.

HEAD OF QA – SAVP

ADVANCE INTELLIGENCE GROUP | Makati City, PH | AUG 2022 – MAR 2023

Project: Mobile Banking App | Back Office (Closed Due to Banking License)

- Provided leadership and technical expertise within test automation using Robot Framework and Appium for mobile app testing for both iOS and android in an on-prem device farm, JMeter for API, load, and rate limit tests, and Github actions for CI/CD.
- Streamlined the QA policies, processes, and procedures.
- Participate with C-level executives and heads to establish quality strategic plans and objectives.
- Managed QA processes and procedures to ensure compliance with BSP requirements.

TEST AUTOMATION MANAGER (Promoted)

ARCHAX | Makati City, PH | AUG 2021 – AUG 2022

Project: Digital Securities Exchange Platform (Forex & Crypto Trading)

SKILLS & TOOLS

AUTOMATION FRAMEWORK
- Hybrid
- Data-Driven
- Keyword-Driven
- Modular Based
- Business Process Testing
- BDD

DESIGN PATTERN
- Page Object Model
- Page Factory

API TESTING
- Postman, SoapUI
- JMeter
- Swagger, Fiddler
- TestNG & Java

DATA STREAM
- Kafka, Ably

PERFORMANCE TESTING TOOL
- Visual Studio Load Test
- HP LoadRunner
- JMeter, GTMetrix

CI/CD
- Jenkins, Github Actions, Azure DevOps Pipeline

VERSION CONTROL
- GIT, SVN, Mercurial, CVS

RHEV, VMware

TRAININGS & CERTS

- Python
- ITIL 2011 Foundation
- Incident Mngt Process & Problem Mngt Process Training
- Project Management Skills
- Persuasive Presentation Workshop
- UFT Automation 101
- Best Practices in Software Testing & Software Quality Mngt
- Smart Card Basics, Global Platform, Cryptography Basics
- Software Testing Fundamentals
- Linux

- Led 6 engineers, expanding test libraries and automation coverage using Cypress, JMeter, Postman, and Cucumber-Gherkin, and cut the regression time by 30%.
- Designed feature files and step definitions to satisfy user stories and feature requirements utilizing a BDD approach using Cucumber Gherkin with VSCode.
- Built CI pipelines with Jenkins, Bitbucket, JMeter, and Zephyr for API testing.
- Wrote JMeter scripts for REST and Websocket API testing.

SENIOR TEST AUTOMATION ENGINEER

TRUEFORT | BGC, Taguig City, PH | JULY 2020 - AUG 2021

Project: Cyber Security Platform

- Identified and resolved critical system bottlenecks, improving response times by 35%.
- Setup, configured, and installed the application under test in the QA Environment.
- Implemented automation in every setup, config, and installation using Bash script.
- Built and maintained auto scripts using Nightwatch.js for UI, and API testing using JMeter.
- Our tests include running network, process, file scan, cpu, memory, nic, package, and all other metrics commands to all windows and linux flavours to make sure that appliance identifies anomalous behaviour, risks, and active threats, and shuts them down.

SENIOR QA LEAD

WTECH SOLUTIONS INC | Makati City, PH | MAY 2018 - JULY 2020

Project: Online Casino Games

- Managed 40 engineers, streamlined the STLC, and reduced the cycle time by 25%.
- Created schedules, resource plans, and communicated risks based on constraints.
- Designed and managed automation frameworks using Robot Framework, Selenium WebDriver, Sikuli, and Postman for API testing.
- Designed and managed the overall performance testing using HP LoadRunner and JMeter.

VALIDATION LEAD (Promoted)

GEMALTO | Makati City, PH | MAY 2013 - MAY 2018

Project: Smart Cards

- Directed a team of 4 engineers resulting in a 20% increase in release readiness.
- Completed trainings in the US and Singapore, and managed projects in both locations.
- Created and executed API tests using SoapUI, and developed a hybrid automation framework with modular, data-driven, and BPT using HP UFT (VBScript).
- Built a hybrid test automation framework using Jubula and Selenium IDE with modular and data-driven components.
- Administered RedHat (RHEV-M) and served as System Administrator for various tools' servers, including SVN, Signing Server, and IBM Server.
- Created and maintained windows installer using NSIS.

SOFTWARE TEST ENGINEER

VERIFONE SYSTEMS INC. | BGC, Taguig City, PH | JAN 2011 - MAY 2013

Project: Payment Devices and POS System

- Developed and maintained automation scripts using Python.
- Worked on a test automation using library architecture testing framework.
- Wrote, updated, and executed test cases during system tests and regression tests using different credit cards, debit cards, customer cards, fleet cards, as well as contactless.
- Ensures test environment is ready, test tools, test card, and test data are available.

TEST AUTOMATION SPECIALIST (Promoted)

SGS GULF LIMITED ROHQ | Makati City, PH | AUG 2007 - DEC 2010

Project: Business Process Web App

- Analyzed the response times of the business transactions under load using VS Load Test.
- Actively contributed in preparing the test plan and wrote test cases according to the business requirements or risk analysis.
- Developed and maintained automation scripts using Rational Functional Tester (Java).
- Created hybrid automation framework incorporating modular and data-driven elements.
